Barges and The Environment

Barges are fuel efficient and reduce air pollu

1 60,000 bbl. barge is equivalent to:

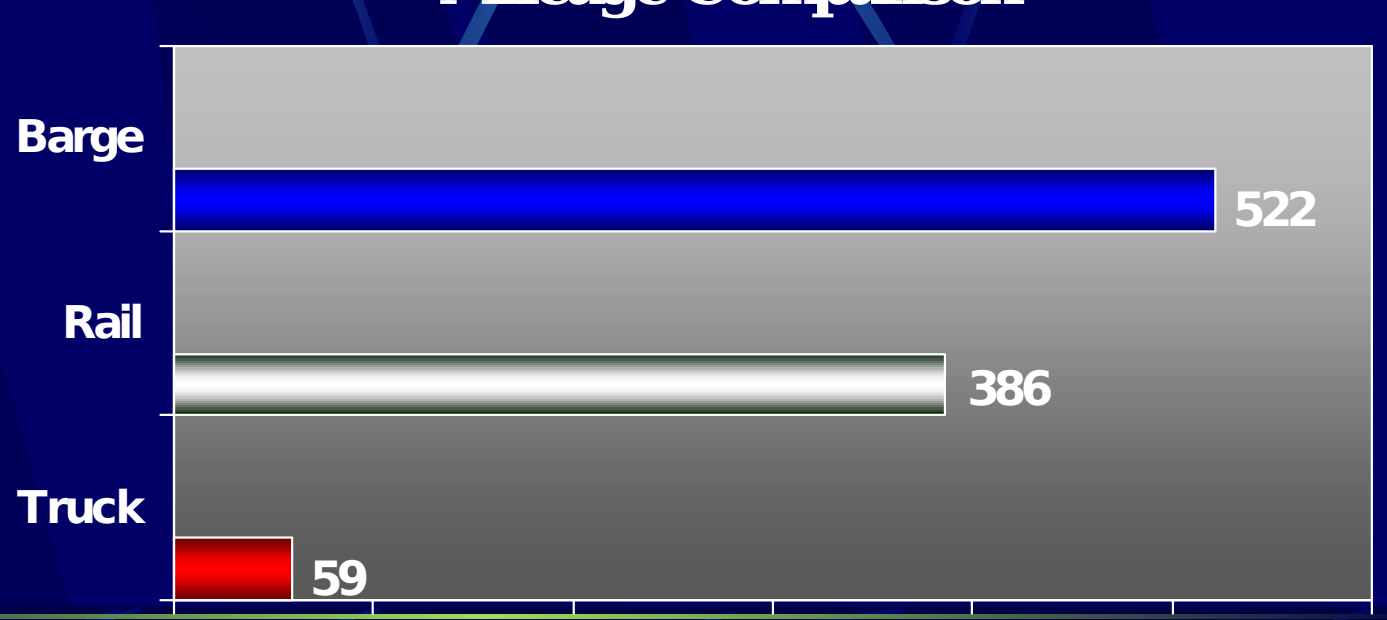
80 Rail Cars

300 Trucks

Barges and The Environment

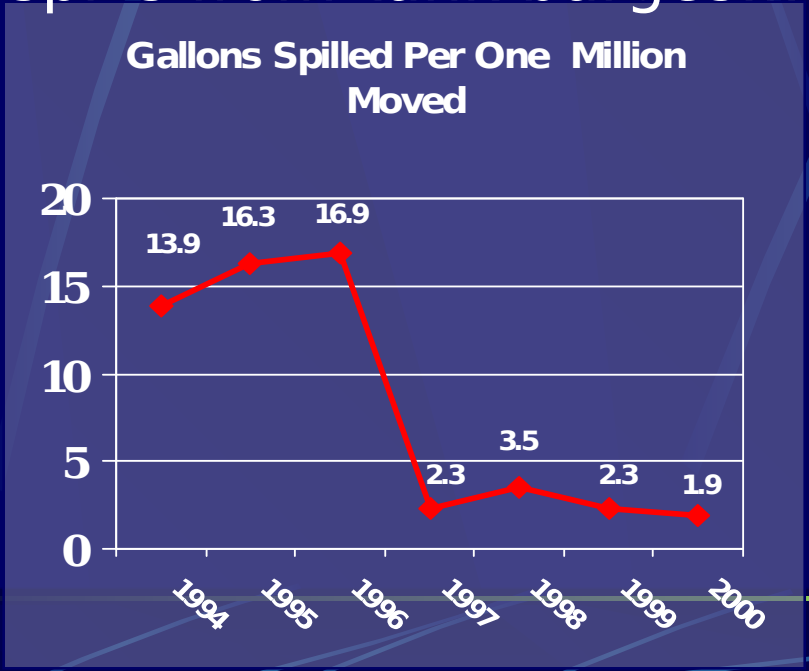
Barges are fuel efficient and reduce air poll

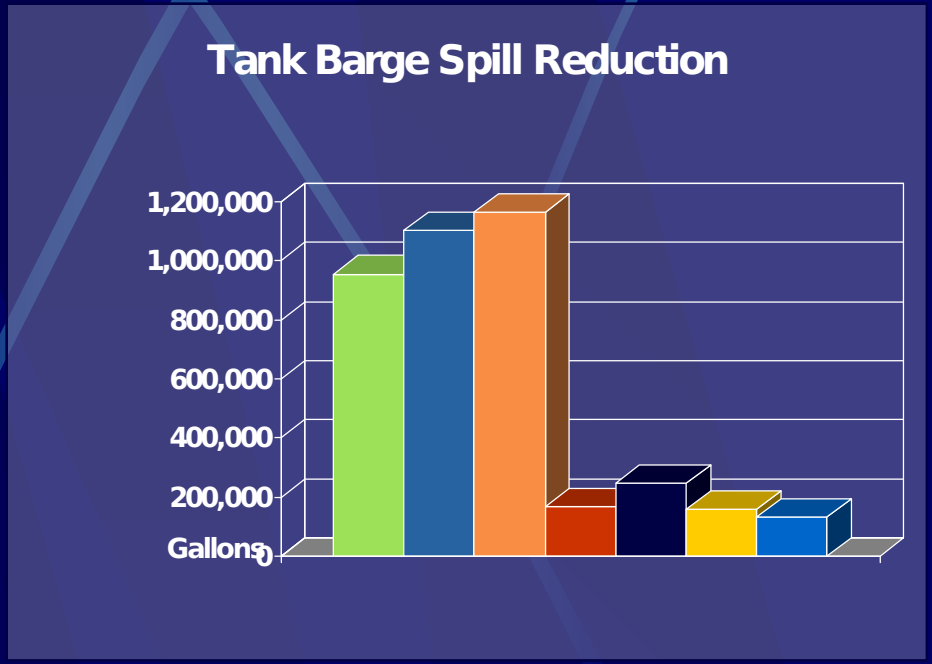
One gallon of fuel can move one ton of freight 522 miles by barge, compared to 386 miles by rail and 59 miles by truck



Tank Barge Spills

The industry commitment to environmental stewardship has significantly reduced spills from tank barges…





…resulting in an 92% drop in spill volume per million gallons of oil moved.

AWO Responsible Carrier Program

A comprehensive safety and environmental code of practice for the towing industry

Ever since 2000 all AWO members have been required to undergo an audit to ensure compliance.

What Is The Responsible Carrier Program?

- Developed By AWO For Barge And Towing Companies
- A Safety Code Of Practice That Encompasses Every Aspect Of Fleet Operations
